Alberta Council on Aging Key Talking Points

Housing

- seniors desire to reside in a place appropriate to their circumstances
- living environments such as outdoor spaces and buildings must support seniors to maintain themselves in the community

Finances

- seniors need to have adequate financial resources to meet their needs
- current supports for seniors are often based on a means tests which looks at income but fails to consider other expenses that may be incurred
 - recommendation: needs testing be used to complement current means tests and be related to individual needs and circumstances

Continuing Care

- continuing care services for Albertans often impose significant costs, however, these services need to be affordable for all seniors
- support efforts to make continuing care services clearly and consistently defined

Transportation

- seniors require equal access to services wherever they live
 - recommendation: provincial government continue to review as to how transportation for seniors can be improved across the province

Health

- seniors require equal access to emergency care, surgery, hospitalization and treatment such as rehabilitation and medications
- seamless delivery of publicly funded and delivered programs and services
- clear standards and eligibility for programs and services
- expanded legislation for Protection for Persons in Care

Elder Abuse

- envision a world free of abuse
- work toward this aim through developing community partnerships
- make appropriate referrals for reporting and receiving help
- influence legislations which protect older persons

Ageism

Definition - Prejudice or discrimination against an age-group ...especially seniors.

To address this ACA will:

- align with age friendly initiatives with the aim to eliminate ageism
- promote inclusiveness of older persons in Albertan communities

Make things easy:
to see, to hear, to use, to understand
