Physical Health has declined	Physical Health has stayed the same	Physical Health has improved
4	5	0

Do you think your mental/emotional health has improved or declined during this time (post-March 2020)

Mental/Emotional Health has declined	Mental/Emotional has stayed the same	Mental/Emotional has improved
6	3	0

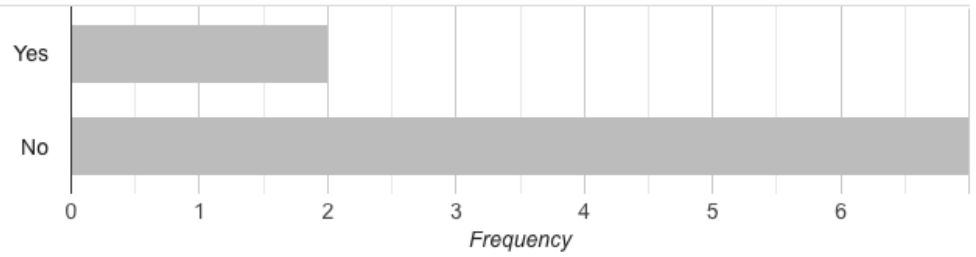

Did you need medical attention during this time?

If Yes, what was your experience like?

- I've had chest pains, shortness of breath, extreme exhaustion, deep cough with thick mucus, head aches
- 1)paramedics came to facility to do head trauma stitches first time-healed well 2)sent to Foothills by ambulance for head trauma stitches second time-healed well
- Scary. Scared to be around people, worse to be around sick people. Dr dont seem to care or take the time listen.
- I am on a routine of needing bloodwork done every 3 months which is followed by a visit to my family doctor and then my medications are ordered according to my bloodwork. My experience has been excellent and it has all gone very well. The only change has been to follow the COVID protocol in all of the facilities which has not been a hardship.
- I was extremely fortunate that my need for a pacemaker was at the time when this type of surgery was being done.

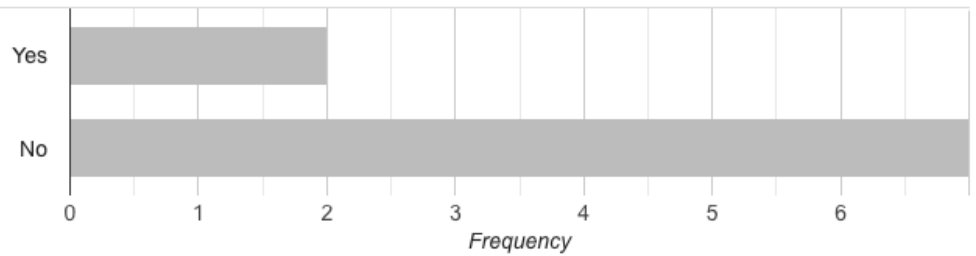

Did you receive home supports (meals, housekeeping, laundry) from paid workers or family/friends prior to Covid-19?

Did these home supports become reduced or discontinued during the pandemic?

Home Supports Discontinued	Home Supports Reduced	Home Supports Stay the Same	Home Supports Increased
1	1	2	0

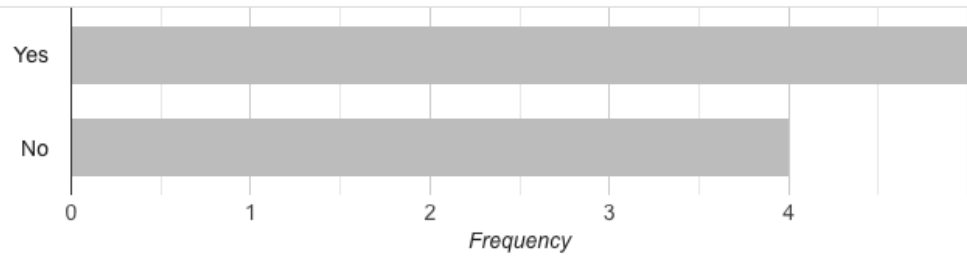

Did you receive healthcare services from paid workers or family/friends prior to Covid-19?

Did these medical services become reduced or discontinued during the pandemic?

Medical Services Discontinued	Medical Services Reduced	Medical Services Stay the Same	Medical Services Increased
1	0	3	0
